

1/10 CFX

- CFX is a high performance crawler comes with the realistic chassis. It is 1:10 scale and applicable to the general ABS realistic body shells. It has the great steering angle and the extreme smallest radius of gyration.
- The planetary-gear box transmission set for the bigger deceleration ratio is greater refined than usual transmission structures.
- The front motor structure as real car keeps the space for personal preferring interior settings.
- The steering servo at the vehicle axle helps to control the precise steering.
- The damper oil consistence and the spring stiffness of the great hydraulic shock absorbers are adjustable for the best movements to the different car weights and terrains.

1/10 CFX specifications

- SIZE: 1/10
- WHEELBASE: 242/252/267mm
- TREAD: 195mm
- GEARRATIO: 31.7~46.7
- DRIVE SYSTEM: Front motor shaft drive (planetary gearbox)
- DAMPER: Oil damper
- SUSPENSION: 4-links
- TIRE SIZE: 30mm W X 90mm OD X1.9" ID
- EST. BOX SIZE: KIT 410mm X 210mm X 100mm
KIT w/shell 490mm X 240mm X 170mm

Front motor with the planetary gearbox

Full Steel gears

Great 40 degrees steering

4-link suspensions
